We've asked the following questions to the artists related to this event!

TOPICS ① Biography ② About this work ③ About MIKU EXPO

- ① Japanese illustrator. Mainly works in character design and drawing illustrations.
- ② Since the theme was Toy Box, I made sure that the artwork is colorful and bright so that it looks great in the live show.
- ③ I'm so honored to be a part of this project by creating this main visual because I've listened to vocaloid music and seen live concerts from a long time ago. Seeing Miku singing in live concerts on stage always makes me excited. I hope you all enjoy this year's Toy Box theme.

Sub visual

Bib Boss

X(Twitter) @BibBoss39

- ① My name is Bib, a big nerd from France who likes drawing, especially when the subject is Hatsune Miku!
- ②③ These concerts have always been an inspiration to me, many different artists coming together and celebrating creativity in the form of Miku and friends is what Vocaloid is all about! So being able to work on this was a dream come true for me! I tried my best to convey the wondrous childish energy of the toy box theme for the whole Crypton family, so I hope you enjoy the event and make great memories!

Ozumiiwizard

- ① My name is Ozu, and I'm an artist from Davao City, Philippines. I love to draw, and I have been doing it since I was a child. In fact, one of the first things I have ever drawn was Hatsune Miku!
- ② Working on this project was genuinely a dream come true, and I cannot describe the excitement I felt when I was asked to make the illustrations for this year's MIKU EXPO. Hatsune Miku and Vocaloid in general have always been very important parts of my life, shaping me as an artist and being always by my side while I was growing up, it was both a comfort and an inspiration. The art style I used for the illustrations is actually inspired by my best friend's art style and a brand of custom plushies we like. I was also very influenced by old, vintage, extremely detailed toys and their packaging. I hope I translated this feeling and aesthetic to the drawing and that it produces some nostalgia but also comfort for everyone who sees it.
- ③ My favorite Miku EXPO moment was back in Miku EXPO 2021 Online, specifically Alien Alien. It's such a fun song, and I really enjoyed the performance that went along with it that year.

MIKU EXPO 2023 VR Theme Song

① Konshion- My name is Synthion, and I'm a 22-year-old Korean-American music producer and VTuber! I used to exclusively make instrumental music, but vocaloid was a big inspiration to start singing and writing lyrics. I fell in love with vocaloid after hearing Mitchie M's "News 39"!

② "imaginary love story" is actually my first time ever writing with vocaloid, but I gave it my best! This year's theme is "toy box", so I tried to capture the child-like wonder of imagination! Let's keep dreaming and escape from reality with Miku~ (Even if it's just temporary...)

③ I'm so excited to finally attend my first MIKU EXPO, and it makes it even more special that I can spend it with Miku fans from all over the world. It's truly the luckiest, one-of-a-kind experience to be able to hear my own song in my first MIKU EXPO!!!

Music Video Illustrator

そゐて / sowiti

① I am a Japan-born and Japan-based illustrator who mainly creates illustrations and designs characters for social games and music videos.

② I was able to create a fun and pop world by adjusting my illustration taste while discussing the theme of the "toy box" with Nihe-san, the creator of the video.

③ I was happy to be able to be involved in this project because "Hatsune Miku" is very special to me. I hope everyone enjoys this music video and the special event.

Music Video Animator

にへ / Nihe

Website nihe.work

① Japanese animation creator/director. I like things that move and stop.

② This work's story is about Miku, who is the main character and meets different Mikus in an RPG game. By looking back on the past of Hatsune Miku, I tried my best so that fans can experience a special animation. I'd be happy if everyone comes to their own conclusions and interpretations of the video, including the cuts before and after the story.

③ For me as a person who is often involved in animation works related to Vocaloid, the presence of Hatsune Miku is big, and being able to work for MIKU EXPO was very special. I'm proud to be a part of creating "Hatsune Miku", who is connected by many thoughts. I'm also excited for MIKU EXPO 2023 VR, which will be held this fall.

A princess trapped inside a castle
Waiting for the one to come rescue me

These building blocks connect me and you
To build a bridge that goes straight to your heart

Open this door to a magical world
To a place where surprises await

Hey! Hey! Jump to the sky!
Hey! Hey! Shoot for the stars!
Will you play along with me?
Won't you join me in my fantasy?

Hey! Hey! Let's play pretend!
Hey! Hey! Until the end!
In my future diary
Together we can write our imaginary love story

Stuck in a maze that I can't escape
Won't you become my light in the dark?

I'm a puzzle with one missing piece
The only one that can solve it is you

Somehow we've become two main characters
Of a brand new, untold fairy tale

Hey! Hey! Let's run away!
Hey! Hey! Just for today!
You're the reason I can sing
Only you can be my everything

城に囚われたお姫様
私を救ってくれる人を待っている

私とあなたを繋ぐブロックで
あなたの心へまっすぐ橋をかける

魔法の世界への扉を開いて
いるんなサブライズが待っている場所へ

Hey! Hey! 空へ飛んで
Hey! Hey! 星をめかけ
一緒に遊んでくれない?
一緒に幻想をみてくれない?

Hey! Hey! ごっこ遊び
Hey! Hey! 最後まで
未来の日記では
一緒に空想のラブストーリーを書こう

抜け出せない迷路にはまって
暗闇の中で私の光になって

私はピースが一つ足りないバズル
解けるのはあなただけ

なぜが私たち二人、主人公になった
新しいまだ語られていないおとぎ話の

Hey! Hey! 逃げ出そう
Hey! Hey! 今日だけ
あなたがいるから私は歌える
あなただけが私の全てになれる

あなたとなら一人じゃない
私のヒーローになってくれない?
一緒に世界を救おう
一緒に空想のラブストーリーを書こう

Hey! Hey! 実現しよう
私とあなたの未来を
またページをめくれるかな?
まだストーリーは終わらせないで

With! You! I'm not alone!
Will! You! Be my hero!
Will you save the world with me?
So that we can write our imaginary love story

Hey! Hey! Let's make it true
A future with me and you
Can we turn the page again?
Please don't let our story end

Hey! Hey! by any means
I'll keep chasing this dream
Until then I'll hope and pray
That it will be true someday

Let it be
Reality

Hey! Hey! Jump to the sky!
Hey! Hey! Shoot for the stars!
Will you play along with me?
Won't you join me in my fantasy?

Hey! Hey! Let's play pretend!
Hey! Hey! 'Till the very end!
In my future diary
Reality will be my imaginary love story

Hey! Hey! どんな手段でも
この夢を追い続ける
それまでは願って祈る
いつか本当になること

どうか
現実に

Hey! Hey! 空へ飛んで
Hey! Hey! 星をめかけ
一緒に遊んでくれない?
一緒に幻想にきてくれない?

Hey! Hey! ごっこ遊び
Hey! Hey! 最後まで
未来の日記では
現実が空想のラブストーリー

- ① I am an amateur artist. I honestly didn't expect to win, thank you!
- ② This is a dancing Miku doll that pops out of the surprise box. You have to turn it to make it move, but sometimes it spins and pops out on its own, making it an adorable doll that surprises people.
- ③ I always felt sad because I live in a country that doesn't hold Miku Expo, but since it was held online, I always watch it. I'm glad you were selected for this concert, but unfortunately the funding didn't reach the goal. But it was an honor to be elected. Thank you!

- ① Artist who likes to draw messy illustrations by using many colors
- ② The theme was Toy Box, so I drew by imagining everyone having fun playing inside the toy box. I'll be happy if you see many colors by looking at this illustration.
- ③ MIKU EXPO for me is the JAPAN TOUR where I saw Hatsune Miku live for the first time. Compared to other live concerts, that excitement I received was special and memorable, more than anything. I hope it continues to transcend the borders of the world and even the screen, and become someone's special live concert.

- ① Became an illustrator after graduating from an art university and working at a game company. I work in various genres.
- ② I heard that the theme was Toy Box, so I drew this illustration imagining a box full of fun, and Hatsune Miku giving out the present saying "Receive this!!". I hope you get the sense of fun popping out.
- ③ I hope that MIKU EXPO 2023 VR will be a fantastic show that excites everyone!

- ① I draw illustrations.
- ② I hope you get a sense of the characters having fun in the event. Also, "Crane-game toys" had been an idea I had for a long time, and because of this contest I was able to complete it.
- ③ I love music with gaming sounds, so the theme song was fun in my ears. I was inspired. I'm cheering for the event! Looking forward to it!

Mizu

X(Twitter) @OfficiallyMizu

Website officiallymizu.com

① Hello! I'm Mizu, a producer, songwriter, and vocalist from the UK. After constantly listening to Miku in my teenage years, I made my first Vocaloid song in 2016. Since then, I have met some of my closest friends through the Vocaloid community and I now write and produce K-Pop!

② Plaything is a reminiscent tale that's very personal to me. Like many people, Miku was an important part of my childhood, but as an adult I started to listen to her music less. But – as the lyrics say - no matter where our lives may lead, Miku will always be a part of us.

③ I attended MIKU EXPO in London back in 2018 and it was an experience like no other! Meeting up with my online friends for the first time and singing along as loud as possible is a moment I'll never forget. I hope that you will sing along to Plaything with me!

② "BIN! DIN! DOM!" The lyrics that everyone would want to sing! I hope you enjoy the excitement of a parade that happens inside the toy box!

③ There are many songs that brings back memories from MIKU EXPO. "Blue Star" and "Sharing The World" are especially memorable. I remember being impressed by the chemical reaction caused by Vocaloid x electronic music.

スターカット / Staircatte

Website staircatte.cayd.co

① Hi, I'm Staircatte! I'm a 19 year old electronic musician & artist from Australia. Vocaloid has always inspired me to be creative ever since I started using it in 2018!

② I really enjoyed creating LDFC together with Danny! We both worked very hard on it and it was very exciting when we found out we'd placed! I think everything came together very smoothly, and I'm glad I got the chance to create something I'm so proud of.

③ I'm very excited to watch the Miku Expo 2023 VR concert! I always look forward to the new designs artists come up with for Miku Expo, but I'm mostly looking forward to hearing LDFC in the credits - I'll have to save it very carefully in my memory!

ドゥ・ドゥ・ダンヨン / Du Du Danyon

X(Twitter) @dududanyon

Website dududanyon.cayd.co

① Du Du Danyon is a composer and arranger straddling the line between gothic rock and punk, and has been a VOCALOID fan since 2014, beginning his career in 2016.

② I used this contest as a pushing off point for Stair, who at the time had not released any of their music. We discussed influences, and I wrote from the heart to match their vision. I'm so glad it all came together, and I'm extremely proud of our work.

③ I've never had the opportunity to participate in Miku Expo before, since I live in a country that's never had any official Miku events. It being online in 2023 meant I could watch for the very first time, and now this year we'll be in the credits! I'm looking forward to it!!

① Hello, nice to meet you! I'm renée! I am a multi-creator who sings, makes music, and draws illustrations.

② I always make Kawaii songs, so after hearing the theme, I had to write a song! I included sounds that match the theme, like the sound of a toy duck, and a sound of winding a spring. Have you noticed??

③ I saw MIKU EXPO for the first time in 2021. I knew from KIRA, who is my favorite Vocaloid producer who wrote the theme song. I watched all the shows, I was standing in front of the biggest TVs in my house, and waving my glow stick in front of it. Haha. MIKU EXPO has been a dream for me, so I'm proud of being on the field of MIKU EXPO even if it's on the edge. I look forward to this years' concert!!

① My Name is Eggtan and I'm a Vocaloid producer from the United States. I grew up listening to songs featuring Hatsune Miku, and I am very happy to make Miku songs of my own. Miku inspires me to make art and music every day, so I always look forward to hearing her sing!

MonochroMenace

X(Twitter) @MonochroMenace

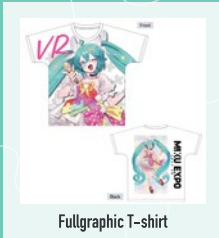

Youtube https://youtube.com/@MonochroMenace

① Hello! I'm MonochroMenace. I'm a college student and aspiring punk rock Vocaloid producer! I started making music in 2020 and never looked back! I hope to release many more vocal synth songs in the future. I discovered Hatsune Miku when I was 9 years old, so she has been a part of my life for a very long time. This honorable mention is so exciting!

Eggtan & MonochroMenace

②③ It took a lot of courage and stepping out of our comfort zones to write a song for Miku Expo. However, we felt that the feel-good message of our song was worth sharing with the world, and we are glad that we did. We wanted to write a song about the importance of having fun and cherishing your childhood-like spirit. We are happy to know that it resonated with its listeners and we are so glad to be a part of such an incredible event like the Miku Expo! We love you Miku, and we couldn't have done it without you!
